Post 16 Project

Welcome to the latest Edition of 'Dear Neighbour', Morgan Sindall's newsletter that keeps you up to date with progress at our Glenwood SEND Sixth form project.

It's been a busy few months at Morgan Sindall's Essex HQ in Chelmsford undergoing our latest project at the Glenwood School.

Having worked with the school on numerous other projects at Glenwood, we were very excited to be awarded the latest phase of works, where we will be providing a new Sixth Form block, which will give the schools learners a separate space to continue their studies post 16.

Within the previous month, we have began construction of the superstructure with timber wall/roof panels and completed the first layers of brickwork.

Within the next month, all timber frame wall and roof panels will be up and the superstructure brickwork will begin. This will provide a general idea of how the buildings shape will look upon completion.

Our site team have an open door policy and welcome anyone with any questions, observations or feedback for us – please feel free to stop by or contact our site team.

We look forward to keeping you informed during the project.
