

Evidence for Learning App - guidance

- Every half term at least 3 pieces of evidence for each outcome area to be recorded on the app
(Communication, Cognition, PSHE and Physical – if there is an outcome)

Comments to include:

Reference to short term target

Level of Support/Prompting

Context (part of a small group/ one to one work etc)

Setting – lesson/place

Evidence recorded on the app will be the focus of regular 'Learning Team' meetings

- There will be a framework on the app for each learner called 'Other Achievements' to capture other learning, development and accomplishments that don't easily fit under an outcome.
- At each termly parent/carer meeting – 1 photo (with short description of the learning) for each outcome area will be given to parents to take away from the meeting (other photos/videos will be shared and discussed during the meeting)

(Photos will be shared and given to parents throughout the year at the three 'Learning Meetings' – At the end of the year 'nice' photos can be sent home with a 'Teacher's comment')
