Headteacher: Mrs Elizabeth Cornish

Summer School 2021

As a school we were able to access some additional funding to offer our young people some additional days of special learning with us.

The idea behind these special days was to offer bespoke fun and exciting activities that our learners often find difficult in crowded public environments. To give them an experience of creative, social and recreational activities in a safe and familiar setting.

Partly due to the need to keep safe during these difficult times, and also to ensure that the activities were entirely suited and appropriate to the needs of your young people, we worked within our learning corridors (Red, Yellow, Blue, Purple and Green) to carefully plan for really special days of excitement and new experiences. All learners accessed a range of creative making and active sessions involving arts and crafts, horticulture, cookery, sensory exploring and games including a special adventure in interactive story space 'Rumble in the Jungle'.

- Red Corridor followed a 'Glenfest' theme on 29th and 30th of July
- Yellow Corridor followed a 'Carnival' theme on 26th and 27th July
- Blue Corridor followed a 'Club Olympics' theme on 22nd and 23rd of July
- Purple / Green Corridors followed a 'Summer and Beach Days' them on 27th and 28th of July

In addition to the fun and happiness, our themes, activities and experiences were all closely connected to some of our important "Curriculum Whys":

- To know what makes them happy and to share in joy when it is on offer
- To be brave about trying new things
- To make connections and relationships
- To draw near to others through shared experiences
- To have confidence and know how to use it
- For each learner to know their unique value and what difference their presence makes
- For each learner to have a sense of pride and know what they do well

We received funding of £9,595 from the DfE towards the delivery of these sessions. The was used to fund staffing.

Together we will; respect, achieve and make good choices.
